NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

In case you attended the basketball tournament this past weekend and are still wondering how come it wasn't set up even close to what we announced in last week's paper we will try to explain what happened here.

It seems that the UIL has ruled this year that the round robin tournaments do not qualify as tournaments under the rules of this organization. This means that a team playing in one is not exempt from the two games a week permitted by the UIL.

The UIL permits high school teams to play two games a week, play three tournaments. This means that a team could play as many as five games on the weeks that they are playing in a tournament but only if the UIL recognizes it as a tournament.

For years teams have been playing in this type of tournaments but since the ruling this year they had to be changed or else all of the teams playing in them would be declared ineligible to compete in district basketball. As we understand it, this ruling affected at least four tourneys in this area this past weekend and no telling how many over the state.

We don't quite understand what the technicality is that outlaws this type of tourney but it has to do with the fact that all teams play three games and the winner is declared on the best percentage rather than by elimination.

Because of all of this coming up last Wednesday, the coaching staff had to spend all day trying to fill out two eight team brackets so that an elimination tournament could be held or else just cancel out the whole affair.

We recognize the fact that the UIL has played a tremendous role in making Texas High School sports the fine organization that it has become over the years but we still wonder sometimes about some of the rulings that they can come up with.

This ruling and the one that forced Haskell to forfeit some of its games this year can be added to the more stupid blunders it has pulled over the years. In this case, they could have made their ruling earlier or waited until next year. And in the case of Haskell, where the interpretation came out after over half of the season was already over, it would appear that something less than the forfeiting of a game or games would be the minimum penalty—if there should be any penalty at all.

We would like to extend our congratulations to Daily Ponder and Barry McDonald for having made the District 7-AA All-District team. This is a fine honor for both boys and in the case of Barry, who is a junior, we hope that this will inspire him to even higher heights next year.

If the talk going around over the state now is any indication of what is to come after the first of the year it would appear that Texas taxpayers would be better off if they could figure out some way to keep the Texas Legislature from ever meeting. With the court rulings on welfare and the commitments already made in the school program it appears that so much money is going to have to be raised that a state income tax may be the only answer.

It seems that all of the usual little money raising schemes used by the legislatures in the past combined will not raise enough money to meet the expected needs. The welfare program is already spending money ear-marked for other purposes with new rulings coming nearly every day to increase the costs. At the same time the past session of the legislature passed a long range school program and teacher pay raise schedule that will take more and more new money each year.

If it were not for the fact that we have to help pay the bills it would be interesting to watch.

SANTA COMES TO TOWN—Santa Claus visits with children after his arrival here Friday afternoon on a fire truck. Here he listens to their requests for Christmas. He will return to Hamlin on Dec. 19, Dec. 22 and Dec. 23. His visits are sponsored by the Retail Trade Committee of the Hamlin Board of Community Development. Charles Reed, in background, is committee chairman.

The Hamlin School Auditorium will be the scene for the 12th annual "Christmas Festival" presented by the Hamlin Bands Dec. 17 at 7:30 p.m. The bands, ranging from the sixth grade beginner band to the high school stage band, promise an entertaining evening of Christmas selections as well as other music.

The sixth grade band will commence the program and will be followed by the junior high school band. The 101-piece Hamlin High School Concert Band will follow presenting a variety of music including selections from "The Sound of Music" and the traditional "Christmas Festival" by Leroy Anderson.

The concert will be concluded by the high school stage band which will present some of the old favorites along with newer selections.

Tickets \$1 and may be purchased from any band member. Each band member urges everyone to make plans to attend a full evening of pre-Christmas entertainment.

To promote the drive students in elementary and junior high health classes made posters depicting the TB drive theme.

Winners named in the elementary building were Guylan Roberts, first in the boys division and Mary Ann Pritchard, first in the girls division.

Junior high winners were Patrick Harper, first; Suelen Waggoner, second and Allen Young, third.

This week students in the first and seventh grades and in kindergarten were given the TB Tine test. Mrs. W. W. Wallace, school nurse administered the tuberculin test. This is done to comply with the State Health Department directive and a resolution passed by the Hamlin School Board. All teachers and employees were tested before the school term.

Miss Lennie Greenway is chairman of the bangle sale locally. Containers have been placed in business houses.

Hamlin is now included in the Big Country TB/RD Association and mailing of Christmas Seals is handled from San Angelo. Donations are to be mailed to the Big Country Association. Money will be distributed as needed in the area.

Council Hires Johnny Steele As Secretary

John H. Steele was hired by the City Council Tuesday evening to fill the office of City Secretary and Tax-Assessor-Collector, according to an announcement made Wednesday by Mayor Hollis Madden.

Steele, a native of Hamlin, has been employed in the office of James E. Rodgers, CPA, for six years. Previously he was employed in the U. S. Post Office here.

A graduate of Hamlin High School, he served three and one-half years in the U. S. Navy.

He is married to the former Daurice Ewing. They have two children Marcia, a freshman at Kansas State University in Manhattan, Kans., and Alan, a seventh grader. They are members of the First Baptist Church. He will assume the duties of the office Dec. 15. He succeeds Mrs. Clinton Barron who resigned Nov. 15.

Meeting Called Tuesday On Salt Water Pollution

A county-wide meeting to discuss the increasing problem of salt water pollution will be held Tuesday evening, Dec. 15, at 7:30 p.m. in the Hamlin High School cafeteria.

State Representative Grant Jones will be the principal speaker.

Others to be present for the discussion will be representatives from the Soil Conservation Service, the ASC office in Anson, the Railroad Commission and the state water board.

The meeting is sponsored by the Landowners Association of Hamlin. Olin Amerson, president, said that all persons in Jones County are urged to attend.

Amerson said that the purpose of the meeting is to make an honest effort to see where the problem lies and to see what can be done about it.

Amerson pointed out that this is not a new problem. "West Lake was abandoned as a source for City water supply several years ago because of the high salt content." It is, however, getting worse as salt water is damaging soil and affecting underground water reservoirs, he added.

East of town one area of

20 to 25 acres of farmland has been lost because of salt area salt water is seeping water damage. In the Neinda to the surface, even to eight miles east of here tests show the salt content is building up in underground wells.

AUSTIN — Legislative Budget Board staff members added little to the season's cheer for legislators with their estimate that even a rigidly-conservative 1972-73 budget will require a \$643.5 million tax bill.

Lawmakers, who report for the biennial session in January, must pass a \$51.4 million emergency finance measure to head off a 20 per cent welfare cut in April, the Budget Board warned.

Texas barely nosed out Illinois for fourth. Illinois' head count is 11,184 million.

HEARING SET — A December 21 public hearing will be held in the McAllen civic center on proposed piece rates for hand harvesting of agricultural commodities.

A sub-panel of the Speakers Committee of the House has recommended bullet-proof glass to seal off the House chamber from the gallery.

Former Vice President Hubert Humphrey will head a list of dignitaries attending the December 15 appreciation dinner here for Sen. Ralph Yarborough.

Norman Newton of McAllen announced he will resign as executive director of State Republican party about December 23, when William M. Steger of Tyler will step down as state chairman to accept a judgeship.

Veterans Land Board has authorized the sale of \$25 million in veterans land bonds — if buyers can be found at the 4½ per cent interest limit.

BELTWAY BANK OF HOUSTON HAS FILED AN APPLICATION FOR A CHARTER WITH THE STATE BANKING COMMISSION.

Real income levels of Texans probably declined in 1970

(considering the consumer price increases), says the University of Texas Bureau of Business Research.

Further auto insurance hearings will be held in Dallas and Houston before that regulatory agency makes its decision on rates.

In other cases the High Court:

Set arguments for January 20 over the validity of the incorporation of West Lake Hills, an Austin suburb.

Upheld a lower court decision invalidating a Comanche County local option election to permit liquor sale.

Texas claims that mid-stream of the Sabine River Sabine Lake and Sabine Pass were established in 1848 by Congress as the dividing line. Louisiana claims the entire river.

Millions in oil lease income are at stake.

TEXAS FOURTH — Tex-

as now is the fourth most populous state in the nation. New census figures show 11,298,787 population which includes 102,057 Texans abroad.

California still is No. 1, with more than 20 million. New York remains second with 18.2 million and Pennsylvania third with nearly 11.9 million.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(December 11, 1925)

Last Friday evening a pleasant time was spent at the Boyd Chapel School, when the pupils and their friends were entertained with a box supper.

The proceeds from the sale of the boxes amounted to a neat sum, but the real interest of the evening came over the contest to decide which young lady of the community should be winner in the Beauty Contest.

After much spirited voting, this honor, along with the large and beautiful cake was presented to Miss Lorena Young.

The entire proceeds for the evening was \$150.45.

We appreciate the presence of the Hamlin boys and thank them for their help.

On Thursday and Friday nights, December 10th and 11th, Miss Knight and Mrs. Swanson will present the pupils of the Fine Arts Department in recitals at the High School Auditorium, 7:30 p.m.

The public is cordially invited. There will be no charge for admission.

There will be a box supper at the Flat Top (Bethel) school house, Friday night, Dec. 11th. Proceeds to be used for play ground equipment. Girls bring boxes and boys bring money. Everybody invited.

A Pie Supper will be given at Round Top, Tuesday night, Dec. 15th. Everybody cordially invited to attend.

The school building at Hitson has been completed with the exception of a few small jobs that can be finished in a very short time. The building has six rooms besides the library and the auditorium. The auditorium will seat five hundred people. The building lacks only a heating plant and electric lights to make it a modern school building in every way.

TWENTY YEARS AGO
(December 8, 1950)

The main hallway of Hamlin High School was taxed to provide seating capacity for the throng that attended the annual football banquet for the Hamlin Pied Pipers Saturday night.

Staged as a Piperette pep squad festival for the gridiron stalwarts, the event found the athletes and their dates dressed formally for the occasion and an adult atmosphere prevailed for the gathering.

Miss Billie Kathryn Newland beautifully filled the role of Master of Ceremonies and the program details were reeled off without a hitch as the football team was honored after a successful season.

Patricia Rimmer delivered the opening welcome to the assembly and Sugar Green responded for the team. Superintendent I. R. Hutchinson spoke the invocation and the tasty banquet was underway.

Billie Kathryn Newland was chosen by the football squad as "Football Sweetheart" and was presented a

Neinda Philosopher Comes Up With An Improved Idea for Using Discarded Bottles

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has another new idea this week, but we're not so sure about it.

Dear editor:

According to an article I read in a newspaper last night, scientists are making steady progress in converting the 48 billion bottles thrown away every year by Americans into something useful. They're making what they call "glassphalt" out of them.

They grind them up, mix them with other ingredients, and then make paved highways out of the stuff.

This is a fine idea but as usual, scientists are going about it the hard way, just as they've been spending years perfecting a computerized, automatic meter reader to eliminate somebody's having to come around every month to see how much water or gas or electricity you've used, when what I'd like to see them do is eliminate the

meter altogether.

Now in regard to grinding glass bottles up into paving material, that's fine, but under the system the scientists are working on the bottles have to be first used, thrown away, picked up, carried to a central plant, ground up, and then hauled back to wherever a highway is being paved.

This is a lot of wasted effort. Here we've all gone to the trouble of throwing the bottles along our own roads in the first place, so why can't the scientists figure out a machine that'll convert them into pavement right where they are?

Yours faithfully,
J. A.

Mike Cavitt Gets ACC Scholarship

ABILENE — Mike Cavitt, son of Mr. and Mrs. L. O. Cavitt of 841 N. W. Ave. I, Hamlin, is among over 900 scholarship recipients at Abilene Christian College this semester.

trophy in designation of this honor.

W. T. Stapler was elected as "Football Hero" of the Piperettes and received his trophy as presented by Miss Newland.

Following the banquet festivities, the assembly moved to the auditorium where a musical group composed of Rev. A. R. Posey, Walter Chalcraft, Nig Stringer and Hubert Carson entertained with instrumental improvisations. Robert Angel closed the entertainment with a display of feats of magic.

Hamlin's Future Farmers of America Chapter of the local high school will sponsor the Hillbilly Circus of KRBC, Abilene Monday night in the High School Auditorium at 7:30 p.m.

Featured in the hour and a half entertainment will be Slim Willet, Blue Sage Boys, Pete Newman, Buck White and Faye Martin.

As a result of reorganization of football districts throughout the state of Texas by the Interscholastic League, Hamlin was moved from Class A to Class AA. Hamlin will be grouped with Snyder, Anson, Colorado City, Rotan and Stamford in competition for 1951.

TEN YEARS AGO
(December 8, 1960)

Hamlin woke up in a "Winter Wonderland" Wednesday morning as trees were coated in ice and icicles edged the eaves of homes.

The scene was a delight for children and the moisture was welcomed by grain farmers, but the icy conditions caused nothing but trouble for high line workers.

Slight thawing began Wednesday morning as light rain was still falling. Rainfall from shortly before noon Tuesday through 5 p.m. registered at 1.07 inches. The temperature stayed close to 32 degrees all during the day.

At 3 p.m. around 300 phones were out of order and reports of trouble averaging 20 per hour were being taken by Southwestern Bell Telephone Company here. Weight of the ice on telephone lines caused lines to snap and poles and cross bars to break. Icicle laden limbs of trees near the lines broke the lines as they fell.

Final 1960 census figures released by the Bureau of the Census gave Hamlin an official population of 3,791. This is an increase of 69 over the preliminary figure and is an increase of 222 over the 1950 report.

The total for Jones County is 19,299 down from 22,147 in 1950. Sixty-three per cent of the county lives in urbanized areas.

Rogue is the new name of the Hamlin Theatre's movie house. The new name was adopted December 1 and replaces the old name of Ferguson which has been used here for many years.

The name was chosen and a contest was held to see if anyone could guess the name picked. Mahan Hall won \$10 and a months free show pass by picking the right name.

It takes a Good Eye...

TO THREAD A NEEDLE

Did you ever thread a needle?

... Most everyone has, it takes a good eye, for the opening is small. Did you ever try to thread one while someone else held the needle?

... This is almost impossible. All this brings us to the point that... *there are some things that we must do ourselves.* We can not send someone else to church for us, we can not have someone else worship the Lord for us. These things are strictly on an individual basis.

ATTEND CHURCH

... YOU'LL BE GLAD THAT YOU DID.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Space Limited? Sleep In A Drawer

SPACE SOLVER Even in limited space, brothers with different interests can find room for privacy. An ingenious bed-divider desk is the secret. Set in the middle of the room, the handsome red chest has pull-out drawers on either side. At bedtime, drawers with comfortable cotton and innerspring mattresses are pulled out to make cozy sleeping quarters. Designed by Ving Smith, A.I.D.

BOYPROOF DECOR - Decorative cotton fabrics and space-saving built-in furniture solve the question of boy-proof decor. Red gingham covers the beds and upholstered chair and brightens windows. A pegboard fitted atop the bed-desk adds privacy. Each boy has his own collection shelves and cabinet space.

Burleson Seeks Relief for Small Hospitals With Bill

WASHINGTON, D. C. —

Congressman Omar Burleson advises that he has been successful in getting the Committee on Ways and Means to adopt an amendment to the Social Security Bill which will relieve small hospitals of the requirement of having a registered nurse on duty at all times. Under present Law, many small rural hospitals simply have been unable to qualify for Medicare under the provisions requiring around-the-clock registered nursing care. Burleson contended that Texas has a very fine Licensed Vocational Nursing Program which can adequately furnish nursing services under the direction of registered nurses and doctors.

"Of course, we must have hospital standards for quality medical care, but they should be reasonable and adaptable to the possible," he said.

The First Really New
College Dictionary
In This Century

The First College Dictionary to give helpful guidance on controversial word usage based on the consensus of 100 leading writers, editors, and speakers.

The First College Dictionary to record the total ancestry of English words—a logical, understandable arranging of the various meanings of a word, beginning with its central meaning. This common-sense organization makes it as easy as possible to grasp what any word really means.

The First College Dictionary to be illustrated with photographs, paintings, maps, and drawings. It has more than twice as many illustrations as any other college dictionary—including locator maps for every country in the world and large maps of the United States and Canada.

The First College Dictionary to give adequate attention to coverage of scientific and technical terms. No other college dictionary has anything like the charts at color and measurement or such comprehensive definitions as those of isomer and isohwa. Word histories are clearly presented with the abbreviations and shorthand symbols common in other college dictionaries.

The First College Dictionary that is really easy to use. Type is large and readable. Notes on style and usage are fully spelled out and easy to understand. The pronunciation key, repeated at the foot of each two-page spread, is almost twice as large and far more sensitive than those in other college dictionaries. There are no special pronunciation symbols other than the well-established schwa. Word histories are clearly presented with the abbreviations and shorthand symbols common in other college dictionaries.

The First College Dictionary to make extensive use of illustrative quotations from literature to brighten the text of definitions and make them more meaningful.
